The girls are particularly affected. During the time of peace, about 600 - 700 pupils attended (this) school; now there are only 200 students. The girls are very few because their parents cannot afford.

KII – Teachers

Some youth left schooling in senior four because their parents couldn’t afford. Some of us have big dreams but due to lack of support, we end up not achieving them.

FGD – Female Youth

Some of us have finished secondary education, but there are no opportunities for higher education like scholarships.

FGD – Male Youth
